

# The Guardian

## You and the Other Financial Personalities

Financial personalities sharing similar traits are very comfortable around each other and reinforce each other's good or bad behaviors. Other financial personalities possess opposing traits, which can lead to conflict or bring out the best in each other.

### OVERVIEW

### PERSONALITY

### SIMILARITY

### INSIGHT

#### The Adventurer

Adventurers seek out the new and different in life and finance while Guardians value the consistent and reliable. But, while vastly different, with balance, they can make a great pair — both pushing each other out of their comfort zones.

#### The Ambassador

Predictable is how to describe these 2. Guardians love routines and Ambassadors find joy in making others happy, so you'll usually find them at the same place they were this time last week, which can get them stuck in a rut. But by mixing things up now and again, they make a great pairing.

#### The Architect

Architects and their plans combined with Guardians and their consistency aren't what you'd describe as impulsive. They think through every decision, sometimes to a fault — missing opportunities for new experiences because it's outside the wheelhouse.

#### The Contrarian

Guardians' adherence to their processes and Contrarians' distrust of trends make them seem like total opposites, but when given a problem they both approach it with a tactical focus. Together they push each other to try new strategies while not brushing off the tried-and-true methods.

#### The Free Spirit

Guardians' love of consistency contrasts with Free Spirits' more devil-may-care attitude. While this can cause tension, it also can push each of them to real personal growth — Guardians can explore new experiences and Free Spirits can find deeper focus in their lives.

#### The Guardian

Predictable is how you describe Guardians together. Their lives are routine, which can drive others mad, but it's exactly what they want. Though when issues or change — financial or personal — arise, they have trouble adjusting to the new normal as quickly as other pairings.

#### The Oasis

Guardians' ability to break down problems combined with Oases' focus on solving 1 problem at a time makes this a great pairing for solving problems. They do tend to focus only on short-term wants, but by pulling their heads up, they'll avoid financial and relationship issues.

#### The Rock

Guardians have an intense focus for everything they do, while Rocks' relaxed approach can stress out a Guardian now and again. But when together, they can overcome their competing styles with compromise and consistent pre-planning because both of them enjoy a good plan.

#### The Spark

While Guardians are paragons of focus, Sparks can get distracted the minute anything goes slightly awry. But as long as they're on the same page about their different styles, they can push each other to be better — Guardians calm Sparks and Sparks encourage Guardians to be more imaginative.

#### The Storyteller

Guardians patiently keep things close while Storytellers are all about impulse and outward expression. But these differences don't mean they can't thrive together. With life or finances, they can find a harmonious balance by communicating effectively with each other.
